

Income Tax - Agreement to Pay

How do I make installment arrangements?

Bills will start to be mailed in early July. Once your billing information is in our computer system you may set up an agreement to pay. There are two methods of setting up an installment plan.

1. Use our [Colorado Income Tax Account Information](#) service on the Web.
2. Use our IVR system at (303) 238-FAST (3278).

If you wish to start making payments on your account prior to receiving a bill, you can mail in your payment attached to the voucher [DR 0900](#) (which is included in the Colorado 104 booklet). Make sure you put the primary Social Security number on the bottom of your payment check and the tax year to which the payment applies.

Individuals may also pay through the [Colorado Online Tax Payment System](#).

[Colorado Online Tax Payment](#) – Pay your Colorado personal income tax, estimated income tax or past due income tax online by eCheck or credit card.
